Why DynEd's Blended Learning Model ?

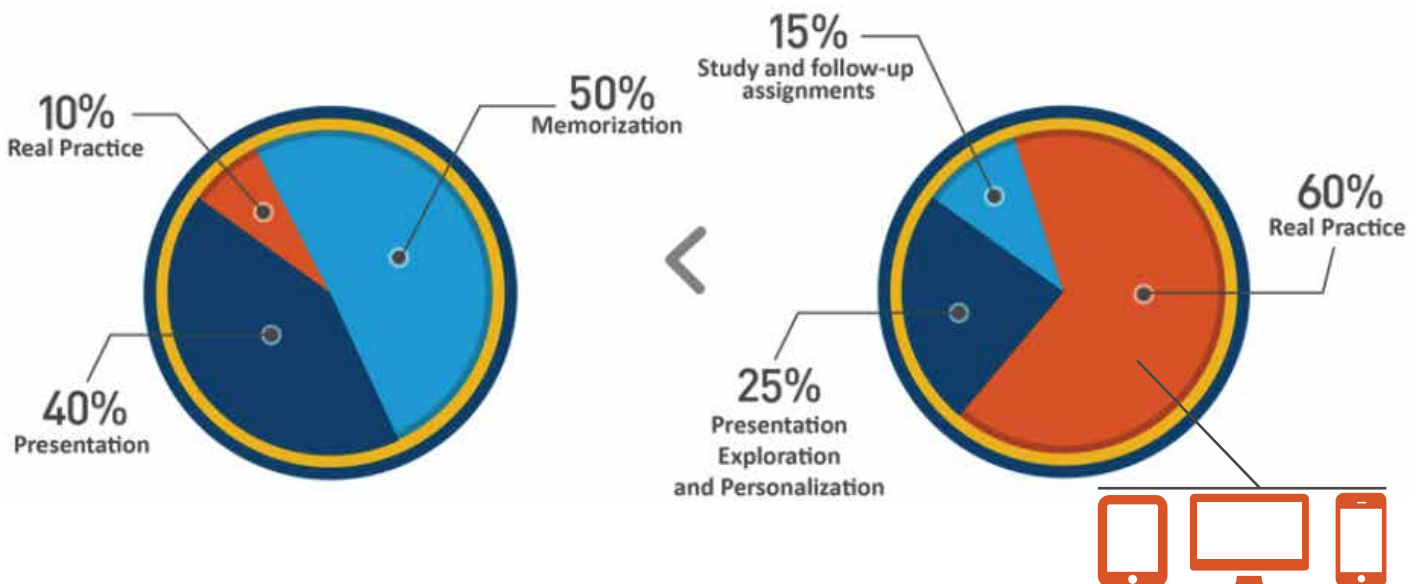

Proven Methodology that delivers results:

DynEd's blended learning model combines classroom or tutorial instruction with individualized computer practice, providing the necessary tools to support a flipped classroom, where teachers act as facilitators and students practice and personalize the language in a way that leads to fluency. Detailed Study Reports help teachers follow, direct, and personalize learner progress. Teacher's Guides and Scope & Sequences provide teachers with lesson plans and classroom activities. By combining courseware study with classroom sessions, students and teachers can focus on results!

Blended Approach

The most effective blended learning approach

Up to 60% faster

- We enable people to develop English Fluency faster than anyone else in the market.
- We deliver English language proficiency certification that is aligned to a globally recognized English proficiency framework.
- We focus on real proven and predictable results!

Integrated Learning Management System(LMS)

DynEd's Records Manager is a specialized language Learning Management System (LMS) and is one of the key support tools for teachers. Its principal role is to give teachers a clear picture of what students are doing when they are using DynEd's multimedia courses for self-study by tabulating and storing all student study records, including:

- Dates and times of study
- Details of all lessons being worked on by date or product
- Quick indications of how much of each lesson students have completed
- Scores on all exercises, Placement and Mastery Tests
- Insight into student study habits through the Intelligent Tutor

A-Z Learning Solution

Starting Early

Elementary School

Broad, formative English early on

Your young English students will enjoy learning with DynEd. In DynEd's Kids courses, an animated cast of characters guide the learning process, and a series of effective lessons build the English language skills needed for success in school. The learning sequence follows the natural learning path: listening, speaking, reading and writing.

Developing Youth

Secondary School

Young adult English proficiency, faster than anyone else

Your students will gain English skills quickly and effectively, while they engage in the curriculum that leads to their chosen career. By closely following their individualized Study Paths, they will add the much sought-after skill - English fluency - to their Curriculum Vitae, opening up a world of opportunities when they graduate.

Reaching goals

Higher Education

Real-world fluency rapidly achieved

A general English course ideal for young adults to help learn the frequently used sentence structures necessary for effective communication at all levels 200+ hours of highly intensive and high quality study and practice. A hierarchical scope and sequence that helps students understand, practice, and internalize the core framework of English necessary for fluency and long-term success.

A-Z Learning Solution

Promoting Professionals

Business and Vocational

Secure your professional goals confidently

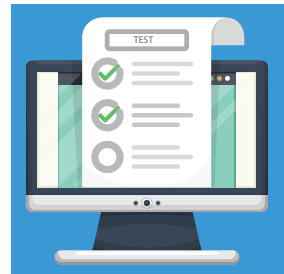

English Language Placement Test

Our English language placement tests are computer-adaptive and variable-length tests which provide a quick, reliable benchmark for assessing the language proficiency of new recruits. Our testing system correlate well with other internationally recognized standardized tests.

Ideal Solution For:

- HR Recruitment
- Student Selection & Admission

Business English Courses

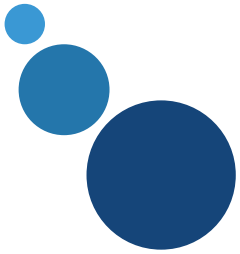

Tired of English programs that don't produce results and waste time and resources? We focus on developing the English language fluency your team needs to compete around the globe and to communicate effectively within your organization. Your learners are ready to handle business and customer support transactions faster than ever before, reducing their time to fluency by as much as 60%! Whether on-site or through mobile learning, DynEd means results.

Customized Courses With Your NEEDS

With our varied and specialized course, we are able to customize the language program to best suit the clients' needs. Specifically designed courses engage the learner by incorporating situations that may be faced in real life. Thus learning is efficient and meaningful as the learner practices within a context which is familiar. This familiarity aids in a holistic learning experience, where language competence is developed and personalized making the individual ready for the task at hand.
